WOOD OR GAS?

FACTORS TO CONSIDER IN YOUR DECISION-MAKING PROCESS

Wood Fire Pits

- ✓ Installation Time
- ✓ Hotter Fire
- ✓ More Affordable
- ✓ Better Experience

Gas Fire Pits

- ✓ Clean Burning
- ✓ Easy to Start
- ✓ Runs Continuously
- ✓ Fewer Fire Hazards

 Circle Insert 30 - 1/2"

Gas Insert 29"

INSTALLATION: CAPE COD FIRE PITS

Your Cape Cod Fire Pit should be set on a non-combustible base, such as 6" of compacted gravel or patio base. As an option, apply construction grade adhesive, which Stonewood Products offers, to secure the stone.

Once the blocks are set, and the grill inserted, fill 1/3 of the fire pit with sand and you are ready to go! If you want pavers or a circle pack to install under the fire pit, consult a Stonewood Products sales specialist for options.

See installation video at www.StonewoodProducts.com/fire-pit-kits

\$849

ACCESSORIES: CAPE COD FIRE PITs

Patio Stone
Many colors available

Circle Packs
Many colors available

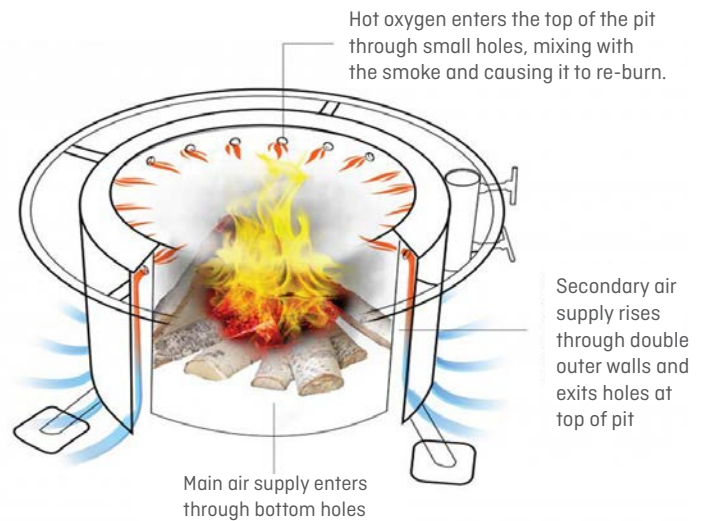

Spark Screens
Disclaimer: not rust resistant

Fire Glass (gas only)
Formulated for long term heat consumption.

HOW SMOKELESS WORKS:

Patent-Pending Technology

While our Cape Cod Fire Pit smokeless insert does eliminate the majority of smoke produced by your fire pit, this technology does not eliminate smoke all together.

GAS FIRE PITS: CUSTOMIZE IN 3 EASY STEPS

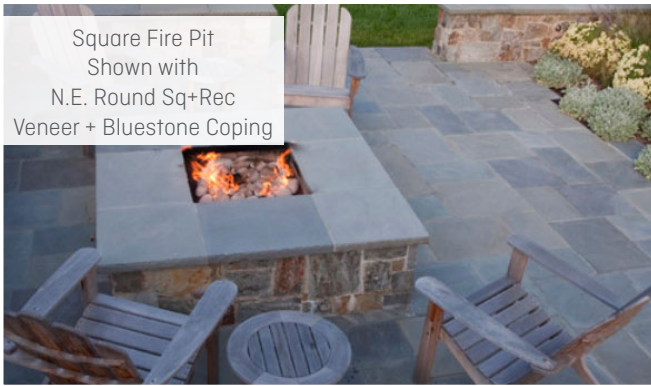

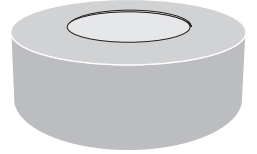

ENGINEERED QUALITY FOR DURABILITY, GALVANIZED STEEL, LIGHTWEIGHT + EASY TO WORK WITH

1 Choose Your Shape

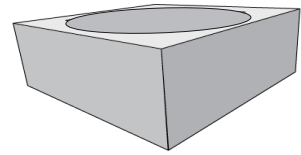

Round - STOCKED

- Modular Round Gas Fire Pit
- Standard Size: **48" x 16"**
- Round Gas Fire Pits include Engineered Modular Unit + Fire Pan
- 36 SF stone veneer needed
- 120,000 BTU, requires 60 lbs. of Fire Glass (fire glass not included)

Square - 24 SF

- Modular Square Gas Fire Pit
- Standard Size: **45" x 45"**
- Circle Gas Fire Pits include Engineered Modular Unit + Fire Pan
- 24 SF stone veneer needed

2 Choose Your Stone

Veneer Best Sellers Below other choices available in our veneer handout

Rounds
Our Best Seller. Used for all types of projects, it is the most versatile.

Square + Rec
This stone is sorted + split into roughly square + rectangular pieces.

Mosaic
The shapes consist primarily of triangles + octagon shapes.

Ledgestone
The natural graining + vibrant colors of the stone are exposed to reveal its beauty.

Ashlar
The natural graining + vibrant colors differ from the Ledgestone but are just as intense.

Coping Thermal or Rocked Outside Edge

Brownstone

Bluestone (Stocked)

3 Add Those Finishing Touches

We offer all durable high quality components from push button or remote start to galvanized spark screens. Choose from the biggest selection of glass to match your outdoor living space and surrounding stone designs.

Push Start or Electric

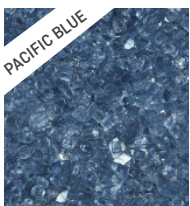

Spark Screens

Disclaimer: not rust resistant
