GROW IT YOURSELF CEDAR GARDEN KITS

Congratulations
on your new planter!

LET'S GROW!

Package contains:

3-1/8" #9 Screws x 4

1-3/4" #8 Screws x 20

Pre-built Planter Ends with Legs x 2

Pre-built Bottom x 1

5/4"x6' Pre-drilled Side Planks x 4

Recommended Tools:

- Power Drill or Driver
- Rubber Mallet (if needed)
- t20 Torx Bit
- t25 Torx Bit

1. Lay pre-built legs on their sides.

2. Position pre-drilled 5/4x6 side plank between planter legs. Align the board with the top edges of both ends and make sure the sides are tight against them before screwing together.

3. Fasten 2 x 1-3/4" screws on each side using the pre-drilled holes.

4. Repeat with bottom 5/4x6 side plank to complete your first side.

5. Flip planter and repeat steps 2 - 4 to complete the second side.

6. Slide pre-built bottom into planter. It will be a tight fit, use a rubber mallet or your hands to gently bang it into place.

7. Be sure to line up with the bottom of the 5/4x6 side planks.

8. Fasten corners with 4 x larger 3-1/8" screws.

9. Fasten middle with 4 x smaller 1-3/4" screws
