The Stonewood Products Difference

SOURCING + STOCKING

Whether it's a small or large job, we take pride in working to help you with your wood and flooring projects. By working directly with mills and the best sources in the industry, you can expect quality products, priced right with a vast inventory.

With over 40,000 square feet of indoor storage, we stock a wide array of amazing wood products to meet your immediate or custom needs.

PRODUCT QUALITY

For years, Stonewood Products has been known to offer top notch quality wood and flooring to match any residential or commercial design goal.

We salvage wood at the source and work with the best mills for newly sawn lumber. This is why we are well known for our quality and product selection.

EXPERT SERVICE. NATIONAL REACH.

With convenient locations, a fleet of trucks, an experienced logistics team, and years of experience, we can support projects far and near.

We have shipped our products to all US states and service any size project from big to small.

SAWYER | MASON

WIDE PLANK COLLECTION

Wide Plank Structured Flooring

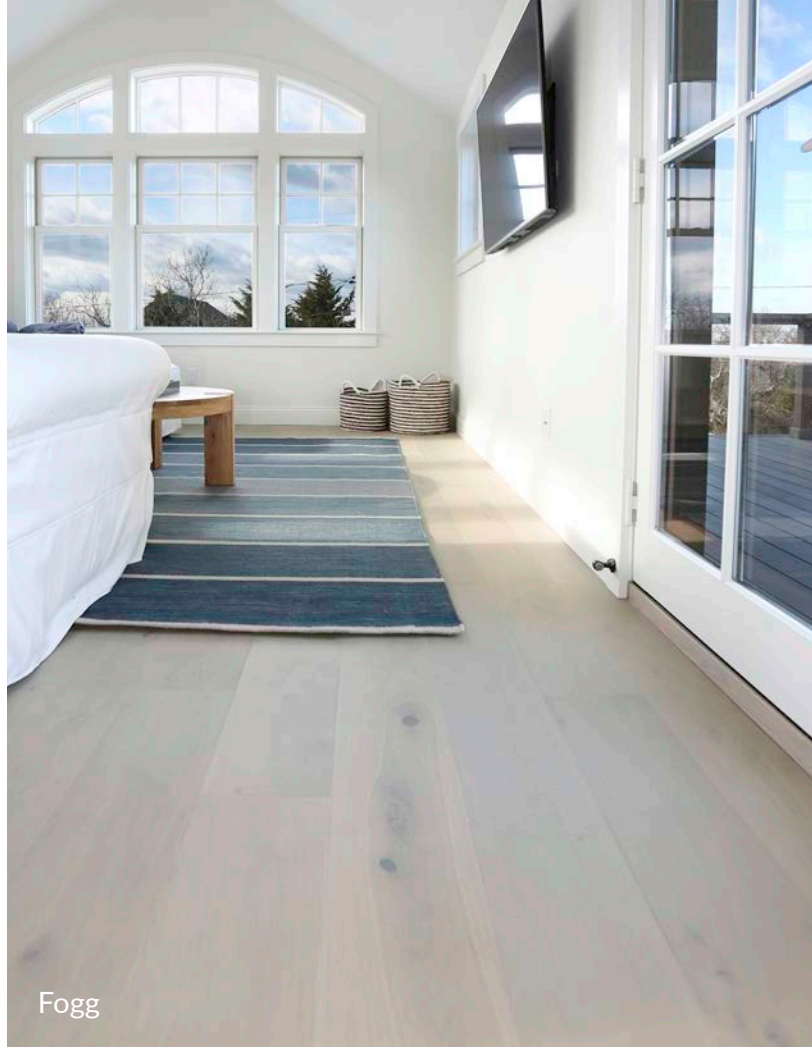

Sawyer Mason offers the beauty of structured wide plank hardwood with UV-finishing and a thick wear layer. With the construction of core veneer at 90 degrees to the grain of the wear layer, this provides maximum stability for your wood flooring.

This collection offers the convenience of prefinished plank flooring with benefits of long lengths, easy maintenance, and a beautiful matte finish. It's no surprise this is a customer favorite.
