The Stonewood Products Difference

Sourcing + Stocking

Whether it's a small or large job, we take pride in working to help you with your wood and flooring projects. By working directly with mills and the best sources in the industry, you can expect quality products, priced right with a vast inventory.

With over 40,000 square feet of indoor storage, we stock a wide array of amazing wood products to meet your immediate or custom needs.

Product Quality

For years, Stonewood Products has been known to offer top notch quality wood and flooring to match any residential or commercial design goal.

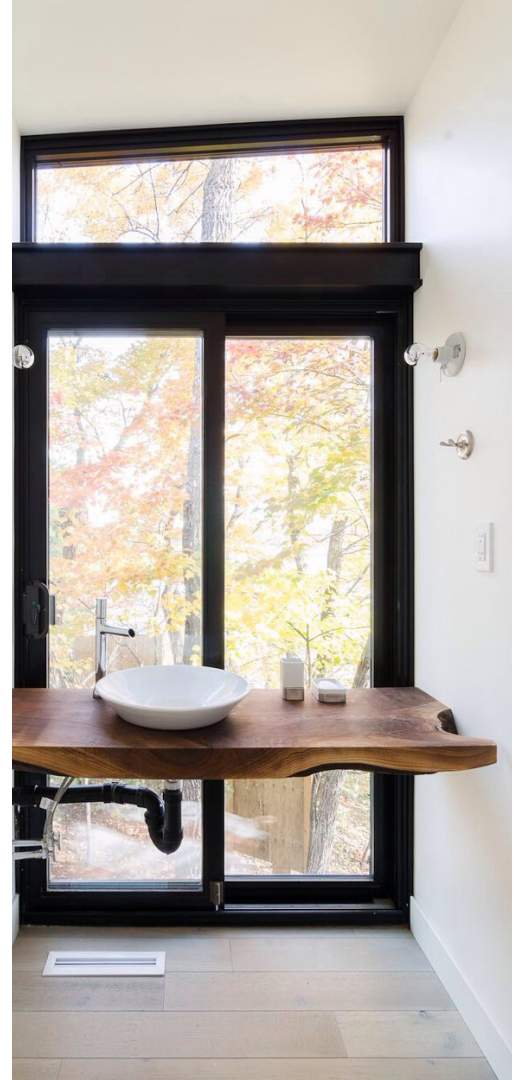

We salvage wood at the source and work with the best mills for newly sawn lumber. This is why we are well known for our quality and product selection.

Expert Service. National Reach.

With convenient locations, a fleet of trucks, an experienced logistics team, and years of experience, we can support projects far and near.

We have shipped our products to all US states and service any size project from big to small.

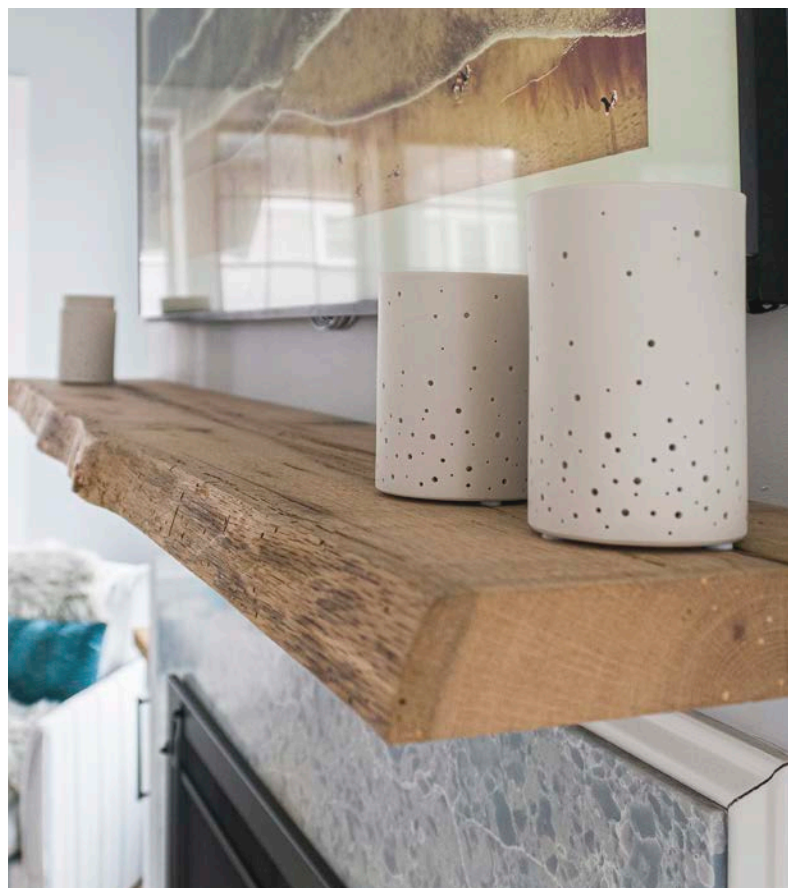

Live Edge Slabs

Live Edge Wood Slabs offer a great way to bring a unique piece of nature into your home. From Pine and Walnut to Oak and more, this wood is excellent for a wide variety of uses, both commercial and residential.

Some uses for live edge slabs include:

- * Dining Tables
- * Kitchen Islands & Countertops
- * Desks
- * Bar Tops
- * Benches
- * Coffee Tables
- * Headrests, Shelves
- * End Tables
- * And more!

Come see our collection in Harwich! Walnut, Maple, Mahogany, White Oak, Redwood, Cherry, Reclaimed and more, our stock is always changing.

Solid or Box Beams | Mantels | New + Reclaimed

We stock a great selection of beams + mantels for your projects. Whether you're looking for an antique beam or mantel to fill your home with history, or you want fresh new beams to make your own, we have it. These beams are perfect for mantels, and lend a sturdy structural element to your home.

If you have any custom needs, we would love to work with you and help get hard to find items.

Box Beams

Box beams offer the look of authentic barn beams without the heavy weight of solid beams, making them perfect for new construction or remodels where weight and structural issues are a concern.

We design and make each box beam by hand, crafted specifically for your unique project. A variety of finishes and wood types are available to fit your needs.

Reclaimed Beams

We offer many sizes and styles of Reclaimed Beams to bring that rustic reclaimed look to your projects. Stonewood Products works to constantly source reclaimed material from demolitions and old structures.

Choose from reclaimed oak, hemlock, or chestnut and determine your finish level: hewn, live sawn, or fresh sawn.

New Beams

Add a modern rustic look to your projects with new beams.

Fresh and pristine, these beams are ready to be filled with the history of your home.

Available in many species and numerous widths and lengths.

Hand pick just the right beam from our wide inventory.

Let's get "real"... We offer many natural products that may vary slightly online, in print, and as samples.

Heart Pine

Southern Yellow Pine

Pumpkin Pine

Pine Plank Wood Flooring

Our inventory is huge and the options are endless. From fresh knotty pine, to fir, to reclaimed antique heart pine, we've got your floor covered. Completely customizable with different stains and wood grades, you can create looks ranging from contemporary to farmhouse chic.

White Pine

Available in several different grades you can have a clear grain floor or a floor filled with tons of character and knots. White pine is a gorgeous plank waiting to be transformed by whatever stain or finish you choose.

Southern Yellow Pine

Southern Yellow Pine stands out with its beautiful grain pattern and a more evenly colored yellow hue.

Pumpkin Pine

Pumpkin Pine is noted for its unique orange hued patina, warmer coloring and varying character. It's still a softwood, but harder than white pine.

Heart Pine

New or reclaimed, heart pine will be a flooring centerpiece. Gorgeous vertical grain and intermittent knots create a warm floor for your space.

Wide Pine Plank

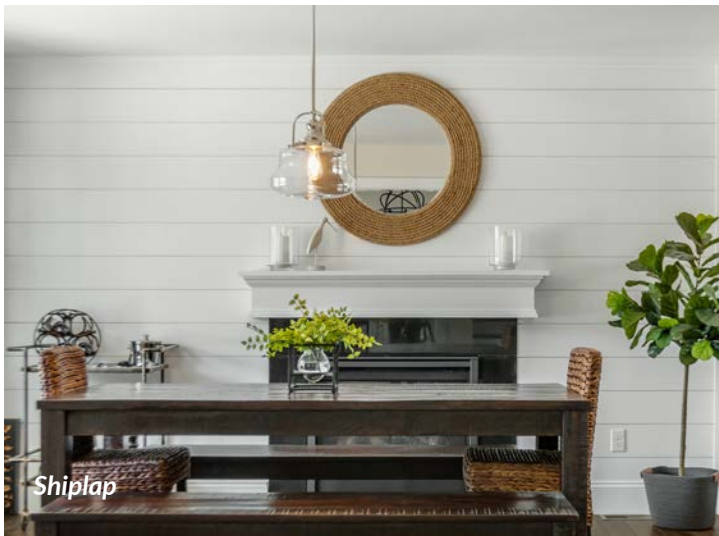

Wallboarding Shiplap + Paneling

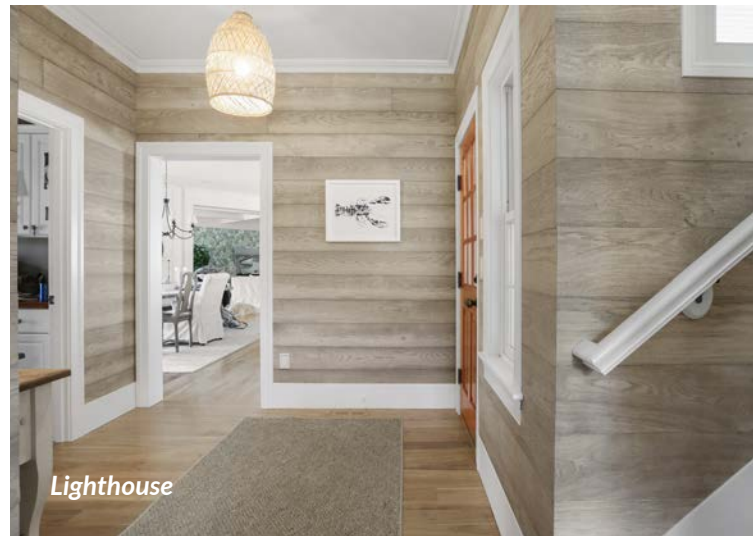

Adding wood to your walls (or ceiling!) can change the look of any space. From restaurants adding a natural rustic wall paneling look with our reclaimed oak to DIY'ers setting the tone in a living room or outside on a barn, we have an amazing inventory of wallboarding.

Shiplap Wallboarding

Nickel Gap Shiplap is a great way to improve your walls or ceilings.

With its clean, unobtrusive texture and versatility you can create a seaside cottage or contemporary feel. Your Modern Farmhouse Vibe is within reach!

Barnwood Collection

Our Barnwood Collection is prefinished 8" nickel gap shiplap that is crafted to look like reclaimed barnwood.

Completely VOC free, these panels only look reclaimed. Add a refined rustic element to your space!

Sawyer Mason Plank

Not just for flooring: our Sawyer Mason collection can create amazing accent walls and stunning rooms.

From a light beach house feel to a darker vintage tone: cover one wall or cover everything!

SAWYER | MASON

DISCOVER THE SAWYER MASON DIFFERENCE.

Sawyer Mason offers the beauty of structured wide plank hardwood with UV-finishing and a thick wear layer. With the construction of core veneer at 90 degrees to the grain of the wear layer, this provides maximum stability for your wood flooring.

This collection offers the convenience of prefinished plank flooring with benefits of long lengths, easy maintenance, and a beautiful matte finish. It's no surprise this is a customer favorite.

EASY TO MAINTAIN

Maintenance is as easy as mopping floors with a natural soap that conditions the wood each time you clean. Surface scratches are easily buffed out of our oiled floors.

THE BEAUTY OF STRUCTURE

Sawyer Mason plank floors offer maximum stability, especially in floors with wide widths and long lengths that are more prone to movement.

SUSTAINABLE + GREEN

This flooring is comprised of sustainable materials and is environmentally friendly. The sustainable core of our structured plank floors consists of a hardwood with similar properties of oak.
